

2018 Irrigation Association Classes

Hosted by:

Principles of Irrigation Landscape (16 CEUs)

February 20-21
8 a.m. - 5 p.m.

Master fundamental theory and application principles for turf and landscape in this intensive session for experienced irrigators (taught in Imperial units). Two full days cover soil-water-plant relationships, advanced hydraulics, electricity, pumps, specialty valves and irrigation equipment. Recommended review for the certified irrigation designer landscape/turf exams 1 and 2.

Registration: \$190/person
Includes manual and lunch

Landscape Water Management & Planning (8 CEUs)

February 22
8 a.m. - 5 p.m.

Learn how to create water budgets, develop irrigation schedules, document water usage and plan for periods of drought. This full-day class will help attendees maximize the benefits of smart technology and work effectively with water providers.

Registration: \$130/person
Includes manual and lunch

Managing a Landscape Irrigation Service Company (4 CEUs)

February 23
8 a.m. - Noon

Considering expanding into the high-growth, high-profit maintenance service business? This half-day class discusses the differences between managing installation and services, including crew economics, contracts and marketing, plus setting up service as a separate revenue center.

Registration: \$80/person
Includes lunch

Class Registration
