

## SKILLED IRRIGATION TECHNICIAN

ECOSCAPE IS SEEKING A HIGHLY SKILLED TRADESMAN AND TECHNICAL EXPERT WHO IS DEEPLY PASSIONATE ABOUT MAINTAINING HIGH-QUALITY IRRIGATION SYSTEMS, AND PRESERVING THE OVERALL HEALTH OF OUR CLIENT'S RESIDENTIAL LANDSCAPES. ADDITIONAL OPPORTUNITIES FOR A SNOW PLOW TECHNICIAN DURING THE WINTER SEASON ARE AVAILABLE. THIS IS AN OPPORTUNITY TO JOIN A FUN AND CARING, COLLABORATIVE TEAM DEDICATED TO CREATING LANDSCAPES THAT ARE GOOD FOR PEOPLE AND THE PLANET.

---

### ABOUT THE COMPANY:

Ecoscape is a locally-owned business highly regarded for their environmental ethics and ecological approach to landscaping. Ecoscape offers a full range of residential landscape design, installation, and maintenance services, including winter snow plow services. Specialized for outdoor living environments enhanced by native and edible plantings, appropriate soil fertility, and water conservation—services are individually customized to enrich land and lifestyle.

The Ecoscape team is a diverse and dynamic group of fascinating beings that share the vision of creating beautiful, ecologically sound, and functional landscapes. The family-style culture at Ecoscape promotes a great deal of idea sharing and collaboration. Ecoscape is fully committed to supporting the personal and professional well-being of employees not only because the company understands the direct correlation to the customer experience, but also because they genuinely care.

---

The Skilled Irrigation Technician is responsible for carrying out the full spectrum of irrigation tasks associated with residential irrigation systems as part of landscape installations, irrigation maintenance, and occasionally stand-alone irrigation installations, including associated troubleshooting and repairs. Duties also include seasonal start ups, repairs, and winterization of irrigation systems and water features, as well as tracking inventory and work order repairs for client billing purposes.

This full time non-exempt hourly position reports to the Irrigation Manager, frequently interacts with clients, and collaborates closely with subcontractors, crew members, the Landscape Installation Manager and Landscape Designer to fulfill job duties.

---

## JOB RESPONSIBILITIES AND KEY TASKS:

### IRRIGATION DUTIES:

- Perform complete irrigation system installations and maintenance from manifolds and valves to drip lines and overhead zones
- Audit, troubleshoot, and repair full irrigation systems independently considering input from team members
- Test irrigation systems for proper functioning of valves and timers
- Locate, excavate, and repair or replace damaged or malfunctioning equipment
- Observe opportunities to enhance client properties and systems by offering recommendations that maximize water conservation including installation, programming, and maintenance of smart controllers, rain sensors, and onsite weather stations
- Perform routine seasonal and preventative maintenance tasks including start ups, blow outs, and associated repairs
- Procures and maintains irrigation tools, parts, and supplies
- Accurately log project hours to specific worksites and material costs for client invoicing
- Support other departments within the company including landscape installation and maintenance

### PLOW DUTIES:

- Plow operation on rural and remote routes in and around the Boulder area
- Track and log accurate plow data for each client including time plowed, depth, and any other relevant notes pertaining to each job
- Drive responsibly and maintain vehicle safety and operation during shifts
- Report any equipment anomalies to supervisor
- Note: plow duties are additional with a pay rate distinct from normal duties (\$40/hr training; \$45+/hr DOE)

---

## SUCCESS FACTORS:

Successful performance of the Skilled Irrigation Field Technician is primarily measured by their ability to meet individual goals and support company objectives. This includes the ability to show proficiency in the tasks outlined above, demonstrate a willingness to learn, demonstrate excellent communication skills to clients, the Irrigation Manager, and other team members.

## SKILLS AND QUALIFICATIONS:

An Ecoscape employee is a team player; committed to effective collaboration, process efficiency, and innovation where appropriate and needed. They promote and demonstrate regular commitment to the Ecoscape philosophy and company values. Their primary objective is to provide excellent customer service, as they understand that everyone is a customer.

- Must have 2-3+ years of irrigation experience
- Must possess thorough knowledge of irrigation installation and maintenance, controller programming, troubleshooting techniques, and proper equipment operation
- Must be a team player with a strong work ethic and integrity
- Exhibit a positive attitude with a focus on efficiency and have a safety-first mentality
- Irrigation Tech Certification preferred, but not required
- Proficient and comfortable engaging with clients and vendors as needed
- Demonstrates competency using technology in communications (email, text, phone calls, software apps)
- Dedication to a high standard of excellence and customer service

- Possesses superior time management skills, is organized, and detail-oriented
- Demonstrates a high level of emotional intelligence, respect, and professionalism in communications
- Regularly practices active listening skills
- Remains curious and asks questions when needed
- Maintains a positive attitude and a great work ethic
- Demonstrates punctuality and is reliable
- Works well under pressure, possesses the ability to adapt, and can pivot with ease
- Candidates interested in plowing through the winter season should have at least 1 year of experience plowing rural residential areas

**SPECIAL DEMANDS:**

- Must be able to lift between 50-80 lbs
- Must have a valid driver's license, a clean driving record, and be able to travel to and from the office and specific project sites when needed
- May be subject to loud noises from the operation of machinery
- Position may sometimes require working outdoors in inclement weather around heavy machinery

**COMPENSATION:** \$20-\$24/hr DOE

**TO APPLY:** Email resume and cover letter outlining previous work experience.
